

Make your home a star

Skypod[®] lantern roofs

Give your
flat roof
a makeover

Let there be light

Give flat roofs a makeover with Skypod – the ideal way to brighten up uninspiring interiors

Go square

Skypod^{sq} allows you to make a real statement with its symmetrical architectural stylings

Flood your home with
**natural
light**

Imagine creating a stylish new living space that's flooded with natural light. Imagine an inspiring contemporary design feature that will not only enhance your lifestyle but add value to your home too. Some would call it the 'wow' factor. We call it Skypod – an innovative pitched skylight range that's been created for today's style-conscious homeowner.

A photograph of a modern interior space, likely a living area, featuring a large skylight and recessed ceiling lights. The ceiling is a light beige color with several square recessed lights. The skylight is made of glass and is set into the ceiling, providing natural light. The walls are also a light beige color. In the foreground, there is a white wall with a decorative pattern. The background shows a view of green trees and a blue sky with some clouds. A teal circle is overlaid on the left side of the image, containing the text "Living spaces with WOW factor".

Living
spaces with
WOW
factor

In the past, most lantern roofs have been made from aluminium. These are not only expensive, but the 'industrial' design isn't to everyone's taste. That's why we created Skypod. As well as offering outstanding looks, it costs less – and provides the perfect match for your existing PVC-U windows and doors.

Styles and sizes

Up to 1.5m x 2.75m

Up to 1.5m x 7.45m

Up to 2.75m x 8.7m

Design will vary dependent on size. Please ask your installer for more details.

A Skypod to suit you

Skypod is available in a wide range of sizes, so you can create a lantern roof that complements the individuality of your home. Skypod is suitable for a wide range of projects such as flat-roofed extensions, orangeries, new builds, kitchen-diners and garage conversions.

A new angle on the lantern roof

Skypod lantern roofs are great if you've got a flat roof big enough to take a full lantern. But what about the homes with smaller extensions and outhouses crying out for a little natural light? Well that's where you need Skypod Acute.

Skypod Acute is a new Skypod design, with a 35° pitch instead of the usual 20°. That means it can be made in much smaller sizes (right down to 0.5 × 0.5m) and fitted to a much smaller roof while maximising the amount of natural light into your home.

Frame colours

Glass colours

Now you can create a lantern roof that complements the individuality of your home with our range of glass colours. Self-cleaning, temperature controlled glass is included as standard.

*Anthracite Grey on Anthracite Grey not available for Skypod Acute

Enjoy larger glass areas

With its clean lines and sleek looks, a Skypod lantern roof will add real height and volume to your room. And thanks to a no side rafter option, you can enjoy unimpeded views!

**Save
money**
on heating bills

An energy efficient solution

Skypod can achieve exceptional U-values as low as 1.0*
– this helps minimise heat loss, meaning that you can
save money on your heating bills.

Fully **guaranteed**

Skypod lantern roofs are guaranteed for ten years*,
so you can be sure that you're buying a robust, well-
designed, precision-made product that's built to last.
